CAVAPOO VS CAVACHON

COAT/SHEDDING	Cavapoos often inherit tighter, curlier coats from the Poodle, making them typically lower-shedding.	Cavachons usually have softer, wavier coats that shed moderately.
TRAINABILITY	Cavapoos tend to learn commands and tricks faster.	Cavachons are slightly slower learners, but are very eager to please.
ENERGY & TEMPERAMENT	Cavapoos are often a bit more lively and playful, but also tend to match the energy of their owners.	Cavachons are frequently described as very gentle, placid, and laid-back lapdogs.
SIZE	Cavapoos generally weigh between 8 to 15 pounds.	Cavachons usually weigh between 12 to 20 pounds.
LIFE EXPECTANCY & LONGEVITY	Cavapoos often enjoy a slightly longer lifespan, averaging 13 to 15 years, reflecting generally good health and veterinary advances.	Cavachons commonly live around 10 to 12 years.
