WHY OUR PUPPIES ARE WORTH THE INVESTMENT

MORE THAN A PUPPY- A LIFETIME COMPANION

At Hattie's Texas Cavapoos, every litter is intentionally planned with health, temperament, and lifelong support in mind. Our puppies are raised to become cherished family members, not simply pets.

The first 8 weeks of a puppy's life shape the next 15 years. We invest countless hours- and thousands of dollars-into every litter so your family can bring home a healthy, confident companion.

HEALTH COMES FIRST

Comprehensive genetic health testing of breeding dogs
Collaboration with a canine geneticist to help guide our breeding program
Carefully selected pairings to reduce the risk of inherited diseases
Veterinary health exams
Age-appropriate vaccinations
Regular deworming schedule
Microchipped before they go home
Two-year genetic health guarantee

RAISED FOR SUCCESS

Daily socialization and handling
Exposure to household sights and sounds
Noise desensitization beginning at two weeks of age
Crate training
Potty training foundation before going home

ETHICAL BREEDING PRACTICES

Carefully selected parents for health and temperament
Small, thoughtfully planned breeding program
Puppies are raised in our home-not in kennels
Parents receive exceptional veterinarian care and nutrition

PEACE OF MIND

Predictable temperament
Health-tested lineage
Ethical breeding practices
Proper early development

Because quality isn't an expense- it's an investment in your family's future.
